

NUR JAGAD MUHAMMAD DANI

FULLSTACK DEVELOPER

Malang, Indonesia | n.jagadmd@gmail.com | linkedin.com/in/nurjagadmuhammaddani
github.com/agaajmd | nurjagadmuhammaddani.vercel.app

SUMMARY

A highly motivated Software Engineering (RPL) student at SMK Telkom Malang, specializing in full-stack web development with a strong focus on React and Node.js. Demonstrated effective leadership and problem-solving abilities through the successful execution of real-world projects. Passionate about building scalable, high-performance applications and delivering intuitive user experiences.

WORK EXPERIENCE

Machine Vision Indonesia

Nov 2025 - Apr 2026

Internship

- Developed and optimized responsive web applications using Next.js and Vue.js for better performance.
- Architected backends and automated workflows using Directus and Express.js to ensure reliable API integrations.
- Managed PostgreSQL databases to support enterprise-level logistics data and infrastructure.
- Facilitated seamless team collaboration via Git, efficiently resolving complex merge conflicts and maintaining branch synchronization.

PROJECTS

Smart Learning Ecosystem (Aegix SLE) | Lead Developer

Feb 2026 - Present

- Designed and deployed an integrated school management system to digitize academic administration, including attendance tracking, grading, and scheduling.
- Optimized data handling and application state management using TypeScript to reduce runtime errors.
- Focused on a user-centric dashboard design to ensure ease of use for teachers, students, and school administrators.
- Live Demo:** aegix-sle.vercel.app

Aegix Solutions | Full-stack Developer

Jan 2026

- Founded and developed a startup platform providing comprehensive IT solutions, focusing on scalable web and software development for business digital transformation.
- Architected the platform using Next.js and TypeScript, ensuring high performance and type-safe code architecture.
- Implemented responsive and modern UI/UX designs using Tailwind CSS to enhance client engagement.
- Live Demo:** aegix-solutions.vercel.app

Aegix Game Station | Full-stack Developer

Nov 2025 - Feb 2026

- Developed a robust full-stack management platform for game centers, featuring an integrated online booking system and real-time station monitoring.
- Streamlined the user reservation flow and administrative dashboard using Next.js and Tailwind CSS.
- Built a secure and efficient backend logic to handle station availability and user data management.
- Live Demo:** aegix-game-station.vercel.app

MomoFlorist | Web Developer & SEO Specialist

Aug 2025 - Oct 2025

- Developed a premium digital storefront for a Surabaya-based florist, featuring a sophisticated Glassmorphism UI

for high-end visual appeal.

- Engineered the site using Next.js and React, achieving fast load times and seamless page transitions.
- Implemented advanced SEO strategies, resulting in the website being successfully indexed by Google and ranking for relevant local keywords.
- Enhanced online visibility and brand authority through a clean, modern, and accessible web interface.
- **Official Website:** momoflorist.com
